

Deepak Chaudhary

Full Stack Developer

Noida, Uttar Pradesh, India | +91-8630956280 | chaudharydeepak47667@gmail.com | linkedin.com/in/deepak

PROFESSIONAL SUMMARY

Full-stack .NET Developer with 3 years of experience building production web applications using ASP.NET Core, C#, and REST APIs, backed by strong relational database experience across MS SQL Server and MySQL, including Stored Procedures, complex queries, and schema design. Skilled in CRUD-based API design, debugging application and database issues, and working across the full stack (Angular, React.js, JavaScript, TypeScript). Following Git-based version-control best practices to ship reliable software on schedule.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, Python, HTML, CSS

Backend / APIs: ASP.NET Core, .NET Core, C#, REST API Design & Integration, LINQ, OOP Principles

Database: MS SQL Server, Stored Procedures, Complex SQL Queries, MySQL, Relational Schema Design, CRUD Operations, Joins & Transactions

Frontend: React.js, Tailwind CSS, HTML, CSS, JavaScript

Tools & Practices: Git/Version Control, Code Reviews, Debugging & Troubleshooting, Agile-style Team Delivery, CRUD Operations

EXPERIENCE

Software Developer

Oct 2023 – Present

EXL Service

Noida, India

- **REST API Development:** Designed and built REST APIs using ASP.NET Core and C#, connecting backend/ML model outputs to frontend applications and improving cross-team data accessibility — directly applicable to CRUD-based API development.
- **Database Design & CRUD:** Designed and maintained relational MS SQL Server schemas across all IMSERV modules, writing efficient SQL queries and ensuring data integrity, consistent performance, and correct CRUD behavior across the application.
- **Frontend Integration:** Integrated ML/AI-generated data into Angular dashboards for IMSERV, giving business teams real-time visibility — demonstrating end-to-end ownership from database to UI.
- **Deployment & Version Control:** Deployed and maintained the application on Linux production servers, and managed Git-based version control across multiple feature branches — including resolving merge conflicts and coordinating releases with the development team.
- **Mentorship & Standards:** Mentored junior developers on Angular and .NET best practices and coding standards, reducing production bugs and improving team delivery speed.

PROJECTS

Online Shopping Cart System | *Angular, ASP.NET (C#), MySQL*

- Built a full-stack e-commerce application with product browsing, cart management, and checkout; designed MySQL schemas and REST APIs for inventory, orders, and payments (full CRUD implementation), enabling small businesses to manage online storefronts end-to-end.

Automated Social Media Post Scheduler | *C#, SQL Server*

- Built a desktop tool to schedule and automate social media posts with text, images, and post timing, using local SQLite storage and CRUD operations for scheduled content.

EDUCATION

G.L. Bajaj Institute of Technology and Management

Greater Noida, India

Bachelor of Technology, Computer Science & Engineering | CGPA: 8.1

Aug 2019 – May 2023

Shivedale Public School

Uttarakhand, India

Higher Secondary (12th) | 93.2%

2017 – 2018

KEY ACHIEVEMENTS

- Owned end-to-end delivery of ML-integrated dashboard features for IMServ, a production email-intelligence platform spanning 5 application modules — from database schema design through live business-facing UI.
- Mentored junior developers on Angular/.NET best practices, resulting in improved team efficiency and fewer production bugs.
- CodeChef 3-Star: Regular competitive programming participant, demonstrating strong algorithmic and OOP problem-solving skills.
- Solved 500+ coding problems across LeetCode, GeeksforGeeks, CodeChef, and HackerRank.
